The Entity

By Eric Frattini (St. Martin's Press, \$27.95 hardcover)

Dan Brown's "The Da Vinci Code" shone a light on the shadowy side of the Catholic Church, and Spanish journalist Eric Frattini goes into even more detail in this historical book about the secret Vatican spy operation known as The Holy Alliance. His peek into this organization, reportedly formed by Pope Pius V some five centuries ago to take out Queen Elizabeth I, reveals The Holy Alliance's hard-to-believe involvement with Napoleon, the Mafia and the Spanish Armada.
